

April 3, 2024 - Agenda

3:00 - 3:30 discuss proposal

3:30 - 4:00 presentation

Meeting notes:

Title: kinda vague?

- Proposal will be remarked by Avril

Changes to presentation to be completed by Monday:

- **Change non-PD to healthy**
- Put red box around drugs of interest in intro slide, delete AADC, cut out everything we are not talking about
- GET RID OF ALL DATA PROCESSING STUFF. NO QIIME2
- Get rid of overall workflow slide
- Venn diagram slide too busy
- Core microbiome: get rid of parameters
 - Remove treatment group numbers
 - Make title more concise → less busy
 - For presentation: tabulate + make a table, put percentages only. Could do heatmap?. for manuscript, keep as is
- Indicator taxa:
 - Briefly mention ___???idk___, elaborate in discussion
 - Hammer home the indicator taxa slide with presenting group
- DESeq
 - Table format possibly ONLY FOR PRESENTATION??
 - Would give more representation, shows better trend
 - 8 rows, 2 columns for increase decrease
 - ~~For PD-untreated, draw dashed line across the graph~~
 - ~~Cut out akkermansia~~
- Cut out *Lachnospiraceae* slide (supp fig 2.)
